Personal data we collect

We collect personal data about you if you have used our services or visited one of our Family Centres. The types of personal data we get depends on which services you use or what you have done at our Family Centres.

If you book a course or session online, we will collect data like your email address and IP address. We may ask you to create a password.

If you attend an activity or session in person, we will collect attendance data and we may also get personal data from our CCTV cameras.

And sometimes we will get personal data about you from others. For example, when you register with the Hertfordshire Family Centre Service we get information about you from Hertfordshire County Council. We might also get information about you from your parents or carers or from the NHS and schools.

We visit local Parent and Toddler groups and other events. We may collect your information if you would like support from us.
